

include/singletonObjectPool.hpp

```
graph TD; A[include/singletonObjectPool.hpp] --> B[mutex]; A --> C[iostream];
```

A diagram illustrating a C++ header file's dependencies. At the top, a gray rectangular box with a black border contains the text 'include/singletonObjectPool.hpp'. Two blue arrows originate from the bottom center of this box. The left arrow points diagonally down and to the left to a white rectangular box with a gray border containing the text 'mutex'. The right arrow points diagonally down and to the right to another white rectangular box with a gray border containing the text 'iostream'.
