

include/computedExpression
Iterator.hpp

```
graph BT; A[src/computedExpressionArray.cpp] --> B[include/computedExpressionIterator.hpp]; C[src/computedExpressionIterator.cpp] --> B;
```

The diagram illustrates a header file inclusion structure. At the top is a gray box representing the header file 'include/computedExpressionIterator.hpp'. Below it are two white boxes representing source files: 'src/computedExpressionArray.cpp' on the left and 'src/computedExpressionIterator.cpp' on the right. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.

src/computedExpressionArray.cpp

src/computedExpressionIterator.cpp
